

## *JAN MARTIN MCGUIRE - Tour Leader*

*Jan has been drawing and painting her whole life as well as being a "tomboy" and naturalist. She prefers to paint what she knows and has seen in nature. Thus she travels extensively throughout North America including Alaska and Canada; Central and South America and many times to Africa. She is a Distinguished Signature Member of the Society of Animal Artists as well as a board member.*

*She works exclusively in Acrylic (Chromacolour) and is known for her attention to detail in all aspects of her work from her animals to it's habitat. This doesn't mean she is a photorealist painter - she does do detail but also skillfully gives the "impression" of detail as she learned from her mentor Robert Bateman.*

*Her passion is conservation and she works tirelessly both boots on the ground, on the internet, and donating art to raise money and funds for a variety of projects in North American and Africa.*

*"Room with a View" 16 x 20 Acrylic  
in this years BIRDS IN ART*

*"Resting Up" 8 x 16 Acrylic*
