

*Karibu!*

*(Welcome in Swahili) - James and I are so pleased you will be joining us on our Kenya Conservation Artist Adventure!*

*This is truly a special project as we will be visiting and then raising awareness and funds for one of the most spectacular conservancies - doing incredibly important work - not just in Kenya - but the entire continent of Africa!*

*In this "book" - I have endeavored to pass on as much information and insights as I can based on my years of experience in traveling to Africa. I hope you will find it helpful in your preparations for our trip.*

*Once you have read all the information carefully, feel free to call or email us with any questions you may still have.*

*Jan and James*
