

Artist Contributions

What the artists will be asked to do in helping to raise awareness and funds for Ol Pejeta Conservancy is to create art that will be used in several different ways.

The participating artists will be asked to do two or three "studies" either in pencil, other B&W mediums, or in color. They will be small - approximately 8 x 10". We will do a couple of online Facebook auctions as James and I have done before for other conservation fund raising.

Additionally each artist will also be asked to donate a fully completed studio painting (or bronze) that will most likely be used at the annual London Fund raiser for Ol Pejeta.

How this will happen is still being worked out. More will be passed on once all the details have been worked figured out.
